Description

MSK Physiotherapist (+/- Womens health, Neurology, Orthopaedics skill sets) full time employed, Hertfordshire, Hoddesdon.

Our ideal candidate would be a Physiotherapist with at least 5 years experience, with a solid MSK base of knowledge and other areas of specialism are of course desired especially Womens health, Neurology, Pilates or Orthopaedics.

We offer continued development opportunities including our fortnightly in house CPD as well as external course training budgets. A/L and sick leave included.

Why work with us?

Shawe Physio was founded off the back of Michael Shawe's frustrations with working in both the NHS and the Private sector as a Physiotherapist. In the NHS he found he was unable to give his patients the standard of care they deserved due to short appointment times and limited numbers of appointments available to patients, as well as patients having to wait a very long time to see clinicians.

In the private sector he found that many practices were overly revenue focused, encouraging practitioners to sell packages of care rather than treat the cause as efficiently as possible.

Michael wanted instead to form a practice that focused on treating patients how he himself wished to be treated – by always putting the patients' interests' firsts, focusing on true care that educated and empowered patients and always aimed to treat the cause of the issue not just the symptoms. His approach focuses on a mixed stance of manual and exercise therapy with the best current evidence-based treatments in mind.

Since opening Shawe Physio in 2015, the clinic has grown into an expert team of clinicians, with MSK base qualifications, individual specialisms and mountains of great experience.

Thanks to all the great members of our team, Shawe Physio has become an exceptional place to work, with outstanding patient reviews and unparalleled customer experience.

Our regular team socials are an important part of our team culture and we pride ourselves on a supportive and enjoyable workplace environment, challenging and encouraging our staff to be the best they can be.

If you're looking for an opportunity to fully make the most of your profession, please contact us for more information.
